

Career Profile

Bryce Danek
Laser Therapist

Specialization:
Pain and Soft Tissue Rehabilitation

Education:
Bachelor of Human Kinetics in Exercise Science, UBC 2006

Bryce graduated from the University of British Columbia in 2006 with a bachelors degree in Human Kinetics.

Bryce started off his Kinesiology career working as a trainer, mostly with teams and younger populations, helping promote health and wellness through structured physical activity.

Today, Bryce is working in the rehabilitation side of kinesiology, treating a variety of pain and soft tissue injuries. He helps patients overcome their injuries through the use of Low Intensity Light Therapy (LILT). Along with LILT, Bryce help rehabilitate clients through stretching and strengthening programs to help them get back to their regular daily activities.

Bryce continues to attend courses, seminars and webinars to further his education and knowledge of kinesiology including: Standard First Aid and CPR/AED, Functional Assessment of the Spine, Custom Orthotic Therapy and Gait Analysis, and many more. Rehabilitation is a rewarding career and only one of many fields of practice that Kinesiologists across the country are involved in.
