

Career Profile

Name: Craig Hogben, B.Kin, CK

Current Position(s):

Secretary and Treasurer, Canadian Kinesiology Alliance
Director, Work Wellness Ergonomic Specialists Inc.
Director, Canadian National Ergonomics Conference

Specialization: Ergonomics and Motor Vehicle Accident

Education:

Bachelors of Kinesiology McMaster University, Minor Biochemistry

As a Certified Kinesiologist, I have had the opportunity to assist individuals, non-profits, and corporations in numerous avenues. I began my career by working for a corporation and assisting with the fitness, rehabilitation, and ergonomics programs. I then moved to a clinical rehabilitation setting and provided care and return to work programs for private, corporate, and insurance based individuals until I was the Operations Manager for two individual clinics.

Following my experience in clinical management, my entrepreneurial instincts lead me to become an independent consultant and business owner performing assessments, return to work programming, and rehabilitation for the motor vehicle accident industry.

For the past 7 years I have been employed by Work Wellness Ergonomic Specialists Inc., as the Director for Sales and Operations. One of my duties in this role is to recruit and manage a national team of ergonomic consultants. In this position I am able to assist individuals and organizations to improve the health and prevent injuries.

Recently, I also co-founded a national ergonomics conference. This gave me the opportunity to bring together everyone involved in the ergonomics industry from the facilities department, human resources, ergonomic suppliers (products and service providers) and deliver Canadian content to further our industry.

Achievements:

- In 2007 I was declared a court appointed expert in kinesiology services.
- Developed a national network of ergonomic consultants
- Co-founded a national ergonomics conference
- Volunteer my time every year for the Ontario Kinesiology Association to attend and promote Kinesiology at local tradeshow
